

Clark County Trails System

The Trails Program creates outdoor recreational opportunities for County residents and visitors through the development of a multi-use trail system dedicated to the health and well being of our community.

Clark County has been busy planning and building trails for many years. Trails can connect people and communities by providing links to parks, schools, activities, shopping, natural areas, federal lands and employment centers.

We work with many agencies through the Southern Nevada Regional Planning Coalition to coordinate the planning and building of trails throughout the Las Vegas Valley. The goal is to steadily expand our regional trails system.

Highlights

- 61 miles of trails for walking, jogging, bicycling and other non-motorized activities
- 13 miles under development in urban/rural areas
- 10 pedestrian bridges; 12 trailheads and waysides
- Over 11 miles of equestrian trails in RNP areas in the Valley
- 3 miles of equestrian trails in Laughlin
- New County Adopt-A-Trail program
